Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Actions

Specification

1. Abstract of the disclosure is objected.

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Claim Objections

2. Claim 11 objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 11, dependent on Claim 1, does not provides any additional limitation to Claim 1 instead it stated all features described in Provisional Patent Application should be included. It is an improper attempt

Art Unit: 2836

to incorporate by reference the provisional application.

Claim 11 should be cancelled and the incorporation by reference must be added to the specification. (See MPEP 201.11 section III B)

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

3. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

4. Claims 1-4, 6, and 8-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite. It is unclear whether the material in parenthesis and quotation marks is intended to further limit the claims or not. Since claims must be definite this improper use parenthesis and quotes makes the claims indefinite. Parenthesis and quotation marks must be removed.

Allowable Subject Matter

5. Claims 1-10 would be allowed when rejections indicated above were overcome.

The following is an examiner's statement of reasons for allowance:

6. Independent Claim 1 would be allowable because none of the prior art of record disclose portable stun device comprising a telescoping, multi-segmented mast and two probes and where a switching mechanism enables a high voltage generator to deliver a pulse via the metal probes in combination with the other claim limitations.

7. Claims 2-10 are dependent on allowable Claim 1 and therefore would be allowable.
